**I'm Recycle Riley
at the Orange
County Landfill.
Garbage is buried
here every day.**

**Let's work together
to reduce waste!**

**We can do
that by recycling
right. Will you join
us as we learn about
recycling and helping
the environment?**

**Great,
let's go!**

It's very important to recycle right!

Everybody can do it!

Recycling saves energy and helps keep our planet clean!

When it comes to

PLASTIC!

remember, only
bottles, jugs,
and tubs go
in the cart!

TWEET
TWEET!!!

1

Instead of throwing away materials...
RECYCLE the right ones into something
to USE again!

2

PLASTIC BOTTLES,
JUGS, AND TUBS

(#1 - #5)

3

GLASS BOTTLES
AND JARS

METAL CANS

4

CLEAN CARDBOARD BOXES

(BREAK DOWN TO SAVE SPACE!)

5

PAPER

3

CIRCLE THE ITEMS THAT CAN'T BE RECYCLED!

When it comes to recycling, some items can be tricky! Pizza boxes go in the garbage because the grease and cheese can make them **icky!**

Cardboard boxes are recyclable!

and fun!

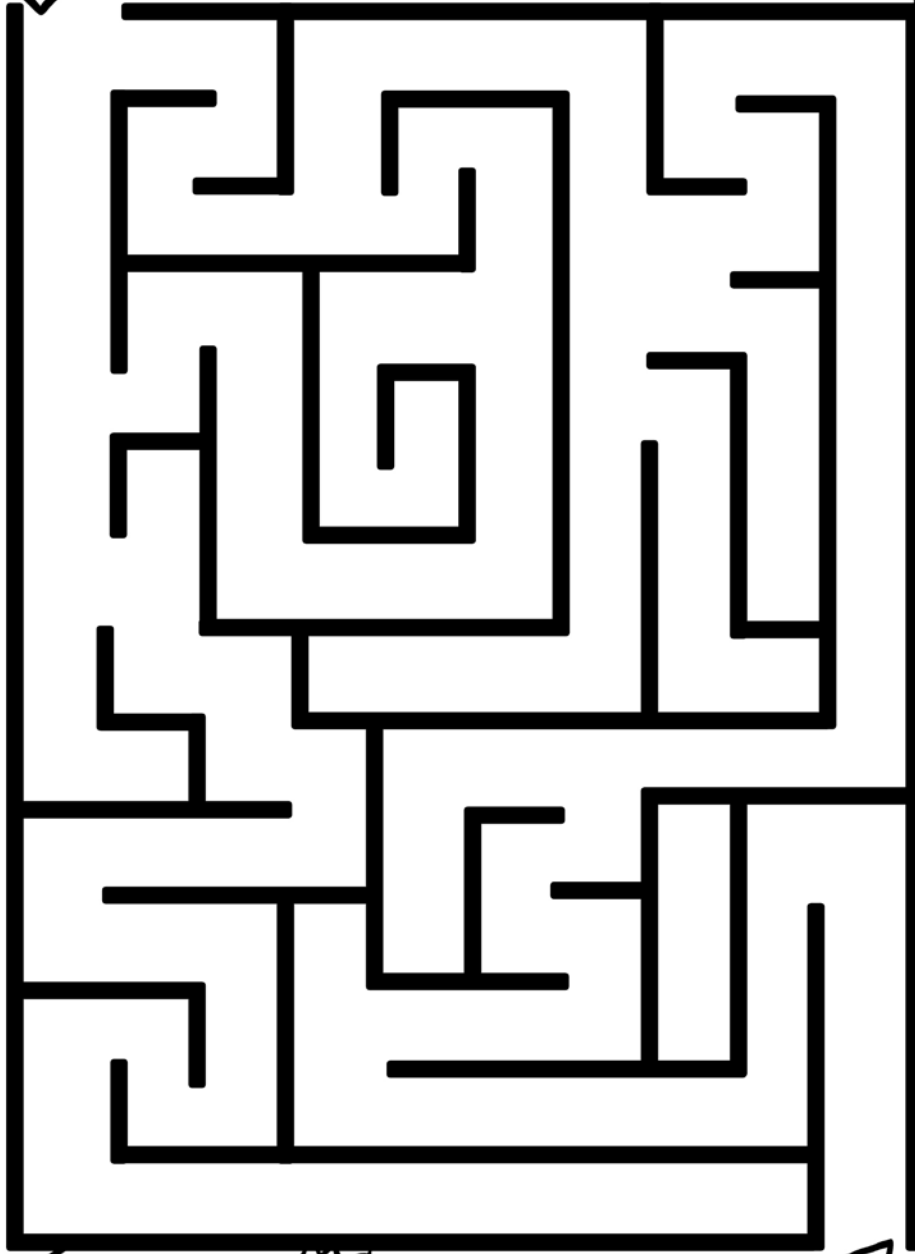

Bags get tangled in the machines. Take the bags to the store instead! Keep plastic bags out of the recycling cart!

HELP RECYCLE RILEY FIND HIS WAY TO THE RECYCLING FACILITY!

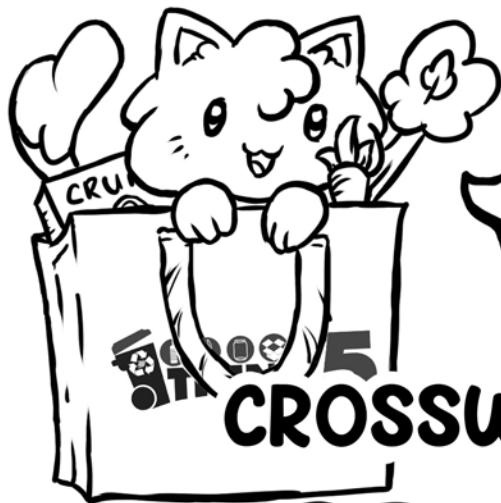

START

Recycle Riley will take your items to a recycling facility for sorting and shipping so companies can make new things out of them. You helped take the first step to clean the planet!

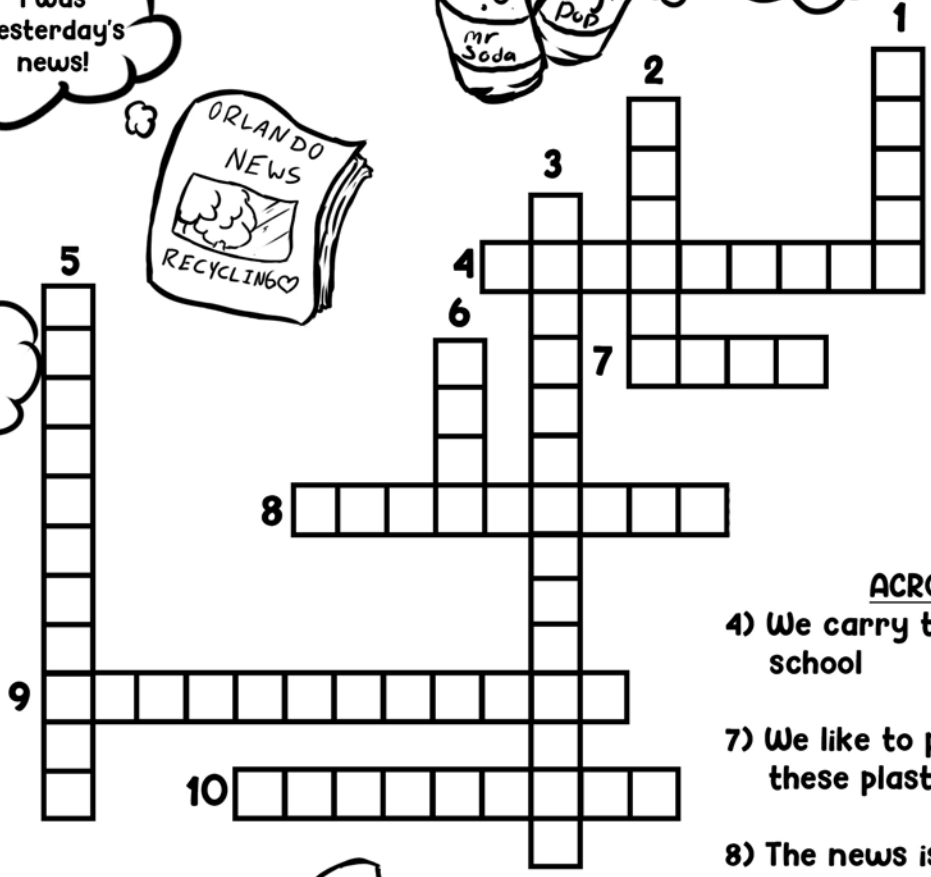

END!

What kinds of things are made from recycled materials?

CROSSWORD PUZZLE

DOWN

- 1) We wear these on our feet
- 2) This keeps us warm in the winter
- 3) We receive packages in these
- 5) A favorite drink comes in this
- 6) Our parents drive these to work

ACROSS

- 4) We carry these to school
- 7) We like to play with these plastic items
- 8) The news is printed on this every day
- 9) You are coloring in it right now!
- 10) My favorite stuffed friend

FUN FACTS

DID YOU KNOW?

1. Recycling 1 aluminum can instead of making a brand new one saves enough energy to power a laptop for 5.2 hours!
2. Recycling 10 plastic bottles rather than making 10 brand new bottles out of raw materials saves enough energy to power a laptop for 2.5 hours!
3. An aluminum can that is recycled can be back on the shelf as a new can in just 2 months!
