

Community Meeting

Orange County's Transportation Planning Division has initiated a transportation improvement study for Sand Lake Road from Apopka Vineland Road to Turkey Lake Road. The purpose of this study is to assess current and future travel demand in the area and identify roadway improvements to keep people and vehicles moving along this corridor. The study also is looking at potential improvements to Wallace Road.

We invite you to attend the community meeting to review potential alternatives that are under consideration. The meeting is scheduled for **Wednesday, October 26, 2016 at Dr. Phillips High School Cafeteria, located at 6500 Turkey Lake Road, Orlando, from 6:00 p.m. to 8:00 p.m.** The meeting will begin with an open house at 6:00 p.m. At 6:30 p.m., there will be a formal presentation followed by a question and answer forum. Aerial maps, potential improvements and other project related information will be available for your review and comment. The Orange County study team will be available to discuss the project and answer any questions. Meeting information also will be posted on the study website (www.SandLakeRoadStudy.com).

On behalf of Mayor Teresa Jacobs and District 1 Commissioner, Scott Boyd, Orange County is pleased to update you about the Sand Lake Road Study.

Orange County Mayor:
Honorable Teresa Jacobs

Orange County District 1
Commissioner: **Scott Boyd**

Ways to Stay Informed

A key component of this study is the public involvement. As part of the study, the County will host two community meetings to exchange information and obtain feedback from stakeholders and the general public.

Community Meeting #1

Wednesday, October 26, 2016

6:00 pm - 8:00 pm (presentation at 6:30 pm)
Dr. Phillips High School (inside cafeteria)
6500 Turkey Lake Road
Orlando, FL

Community Meeting #2

The preferred alternative will be presented at a public meeting anticipated to occur in the first quarter of 2017.

Study Advisory Group Formed

Representatives from local neighborhoods, businesses, civic groups, and agencies within the study area have been invited to join the **Study Advisory Group (SAG)**. The SAG has met twice so far and provided the study team with valuable insight into preparing the study team for the first community meeting. The SAG will meet two more times over the course of the study and will continue to advise the study team as considerations for mobility and operational solutions are developed for the Sand Lake Road area

Meeting summaries will be posted on the study website following each meeting.
