

Leading by Example

Each year, an extraordinary group of people step forward to help their neighbors in need by becoming United Way Leadership Investors.

They realize that United Way is a wise choice for philanthropic giving because it ensures that their donation, combined with thousands of others, has a direct impact right here in our local community.

As a Leadership Investor, you can also partner with nearly 100 Heart of Florida United Way supported agencies that provide comfort, hope and assistance to hundreds of thousands of Central Floridians each year.

Your donation will help provide housing for homeless families, warm meals for senior citizens, safety and security for abused women and children, quality after-school programs for at-risk teens and so much more.

Please consider this sincere request to take action and join with other committed leaders who are making a significant difference and improving lives and community conditions throughout Orange, Osceola and Seminole counties.
