

Youth Violence Prevention Mini-Grant Results

Youth Violence Prevention Mini-Grant applications were reviewed by the Mini-Grant Application Review Committee using established evaluation criteria.

Following the committee’s review, applications received funding recommendations from the Citizens Review Panel for Human Services (CRPHS). Applications were approved for funding based on the highest number of affirmative responses to the evaluation criteria. When applications received the same number of affirmative responses, the date of submission served as the first tiebreaker, followed by the time of submission.

Funding was awarded in this order until all available Mini-Grant funds were exhausted.
