REQUIRED DOCUMENTATION FOR ALL VARIANCE REQUESTS

1. All Variance Requests Must Provide the Following:

- A. A detailed cover letter must be submitted with each application. The letter shall include what the request is for (fence, porch, pool, shed, garage, carport, type of addition, sign, accessory structure etc.), the reason for the request, the type of construction proposed (wood, concrete, mesh screening, vinyl, metal, aluminum, etc.), how many square feet is proposed, the proposed dimensions, how far away the construction will be from the all property lines, proposed height, and numerical values, such as, what is allowed (in feet) versus what the Code requires in feet. The letter is also required to provide justification for how the proposal meets the six standards for variance approval as outlined below:

Variance Criteria: Section 30-43 (3) of the Orange County Code stipulates specific standards for the approval of variances. No application for a zoning variance will be approved unless the Board of Zoning Adjustment finds that the following standards are met. Please fill out the criteria on pages 13-14

1. **Special Conditions and Circumstances** - Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures or buildings in the same zoning district. Zoning violations or nonconformities on neighboring properties shall not constitute grounds for approval of a proposed zoning variance.
 2. **Not Self-Created** - The special conditions and circumstances do not result from the actions of the applicant. A self-created or self-imposed hardship shall not justify a zoning variance; i.e., when the applicant himself by his own conduct creates the hardship which he alleges to exist, he is not entitled to relief.
 3. **No Special Privilege Conferred** - Approval of the zoning variance requested will not confer on the applicant any special privilege that is denied by this Chapter to other lands, building, or structures in the same zoning district.
 4. **Deprivation of Rights** - Literal interpretation of the provisions contained in this Chapter would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of this Chapter and would work unnecessary and undue hardship on the applicant. Financial loss or business competition or purchase of property with intent to develop in violation of the restrictions of this Chapter shall not constitute grounds for approval or objection.
 5. **Minimum Possible Variance** - The zoning variance approved is the minimum variance that will make possible the reasonable use of the land, building, or structure.
 6. **Purpose and Intent** - Approval of the zoning variance will be in harmony with the purpose and intent of the Zoning Regulations and such zoning variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
- B. Detailed site plan/survey (8 ½" x 11" or 11" x 17") with dimensions drawn to scale by a surveyor, licensed contractor, architect or engineer. Please indicate which side of the property needs the variance. Distances in feet from all property lines shall be shown and legible on the site plan/survey. If the variance request is for an existing structure, an updated survey drawn by a certified land surveyor showing the existing structure(s), dimensions and distances from property lines must be submitted.
- C. If on a lakefront, waterfront, or on a natural canal, the site plan/survey shall be drawn by a certified surveyor and it must show the approved Normal High Water Elevation Line, the 100 year flood elevation line, and the proposed finished floor elevation of the improvement. These lines must be certified by a surveyor.
- D. Architectural elevations drawn to scale for all proposed structures.

2. Variance Requests for Signage (including billboards)

- A. In addition to A above, the detailed cover letter shall include the type of sign that the request(s) is for (i.e. wall sign, ground sign, pole sign, etc.), the reason for the request, how much square feet of copy area is proposed, sign dimension, proposed height, and the distance of the proposed sign(s) from all property lines.
- B. Detailed site plan (any size) drawn to scale by a surveyor, licensed contractor, architect or engineer showing all existing and proposed sign locations and setbacks. If the sign already exists, you must submit an updated survey drawn by a certified land surveyor showing the sign, including dimensions and distances from property lines.
- C. Two (2) copies of sign renderings drawn to scale for all existing and proposed signs.
- D. An 8 ½" x 11" or 11" x 17" reduction of above plans.

3. Appeal of the Zoning Manager's Determination

- A. A copy of the Zoning Manager's Determination letter must be attached.
- B. A letter that rebuts the Zoning Manager's determination.
- C. Detailed site plan (any size) drawn to scale by a surveyor, licensed contractor, architect or engineer, if the approval involves physical development.
- D. Dimensions shall be shown on all sides of the property.

Zoning would prefer the application be submitted via email with electronic plans in PDF format.

VARIANCE CRITERIA

1. **Special Conditions and Circumstances** - Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures or buildings in the same zoning district. Zoning violations or nonconformities on neighboring properties shall not constitute grounds for approval of a proposed zoning variance.

2. **Not Self-Created** - The special conditions and circumstances do not result from the actions of the applicant. A self-created or self-imposed hardship shall not justify a zoning variance; i.e., when the applicant himself by his own conduct creates the hardship which he alleges to exist, he is not entitled to relief.

3. **No Special Privilege Conferred** - Approval of the zoning variance requested will not confer on the applicant any special privilege that is denied by this Chapter to other lands, building, or structures in the same zoning district.

4. **Deprivation of Rights** - Literal interpretation of the provisions contained in this Chapter would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of this Chapter and would work unnecessary and undue hardship on the applicant. Financial loss or business competition or purchase of property with intent to develop in violation of the restrictions of this Chapter shall not constitute grounds for approval or objection.

5. **Minimum Possible Variance** - The zoning variance approved is the minimum variance that will make possible the reasonable use of the land, building, or structure.

6. **Purpose and Intent** - Approval of the zoning variance will be in harmony with the purpose and intent of the Zoning Regulations and such zoning variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
