### Project Details

Orange County is finalizing a Project Development and Environment (PD&E) Study for the widening of McCulloch Road from Ken Dixon Way to North Tanner Road, a distance of approximately one mile. The planned improvements would provide four 11-foot wide travel lanes, two in each direction, separated by a raised median. The improved corridor would also have a 6-foot wide sidewalk on the north side and a 10-foot wide sidewalk on the south side. The multi-modal improvements are intended to enhance traffic flow and safety for all road users in the area.
