

AVALON ROAD/CR 545 ROADWAY CONCEPTUAL ANALYSIS (RCA) FROM US 192 TO HARTZOG ROAD

Issue #3

ORANGE COUNTY MAYOR
JERRY L. DEMINGS

DISTRICT 1 COMMISSIONER
NICOLE H. WILSON

LPA & BCC Hearings Scheduled

Orange County is finalizing a Roadway Conceptual Analysis (RCA) Study for the planned widening of Avalon Road / CR 545 from US 192 to Hartzog Road.

The recommended plan would provide four 12-foot-wide travel lanes, two in each direction, separated by a 22-foot-wide raised median. The improved corridor would also have a 6-foot-wide sidewalk on the east side of the road, and a 10-foot-wide shared-use path on the west side of the road. The sidewalk and multi-use path would be separated from travel lanes by a 4-foot-wide grass buffer.

The RCA Study involves significant data collection, including current and future traffic volumes, current and future land use along the corridor, and right of way needs. The study also involves thorough environmental analysis to evaluate potential impacts to protected and endangered species, wetlands, or other natural resources.

The public will have two opportunities to provide public comment at upcoming Public Hearings before the Orange County Planning & Zoning Commission and the Board of County Commissioners. Details about the date, time and location of the hearings are listed below.
