# Bates Road Bridge Replacement & Roadway Approaches

From West of Glyn Street to  
West of Patel Drive

District 3 Commissioner  
Mayra Uribe

District 5 Commissioner  
Emily Bonilla

Newsletter #2

September 2022

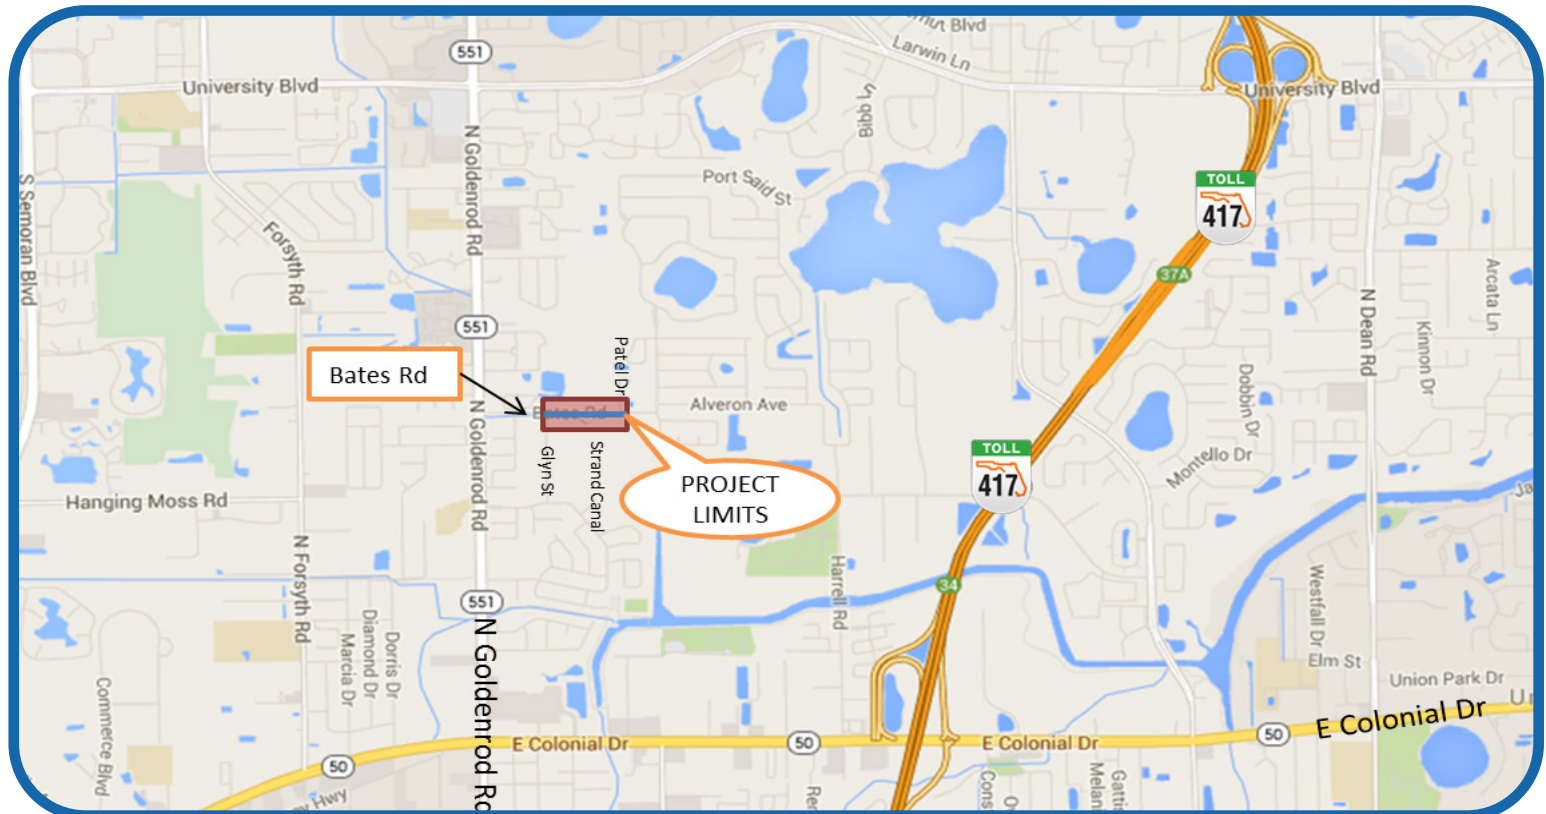

## Final Design and Right-of-Way Acquisition Underway

Orange County began engineering design and preparation of construction plans in October of 2014 for the **Bates Road Bridge Replacement and Roadway Approaches Project (from West of Glyn Road to West of Patel Drive)**. Completion of the final plans is ongoing and is scheduled for November 2022.

The right-of-way acquisition phase started in Fall 2019 and is scheduled to be completed early 2023. The construction phase is scheduled to commence Fall 2023. A third newsletter will be distributed when the project advertises for construction bids.

## Project Summary

Improvements will consist of a new bridge with pedestrian accommodations on each side. The new bridge will be raised approximately two feet in order to provide the proper clearance over the Crane Strand Canal. Additionally, portions of Bates Road abutting the bridge to the East and West will be constructed to accommodate the raised bridge profile. Right-of-way acquisition will be needed for the bridge, bridge roadway approaches and utilities.
