

# Crystal Lake Area Traffic Calming Pilot Fact Sheet

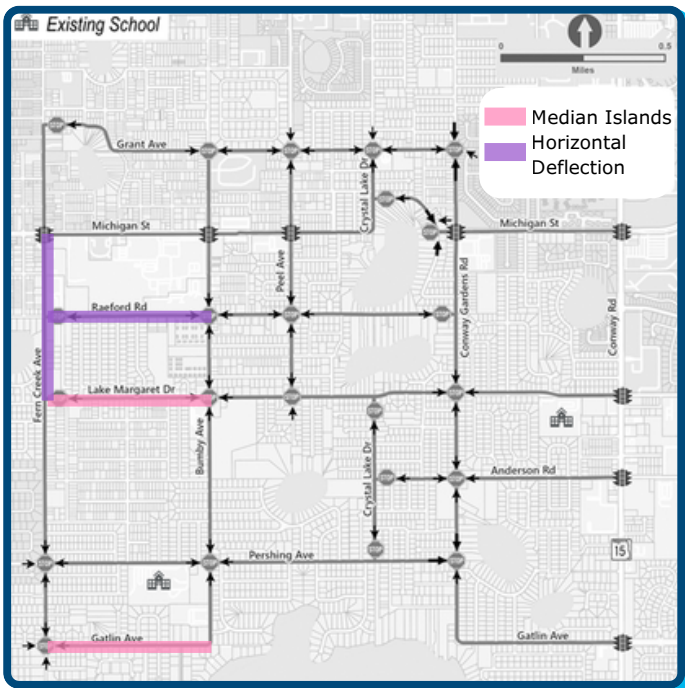

Project Website

INSERT LINK

## Project Summary

The purpose of the pilot is to test the effectiveness of traffic calming strategies on Crystal Lake Area roadways.

After six months, surveys will be distributed to residents to determine if the community wants the treatment to remain, to be removed, or to be installed permanently.

## Horizontal Deflection

Curb extensions that alternate from one side of the street to the other, requiring drivers to slow down to navigate the slight shifts.

## Median Islands

Raised sections installed on the roadway centerline that narrow the travel lanes and provide deflection.
