Project Details

The Project consists of the western extension of New Independence Parkway, from the Lake/Orange County line to approximately 400 feet east of CR 545 (Avalon Road) for a distance of roughly 1 mile. The project will include two 11-foot-wide lanes in each direction separated by a raised grass median.

Construction to begin August 2025

Orange County, through a public/private partnership, is approaching completion of the final design phase for the extension of New Independence Parkway from the Lake/Orange County Line to CR 545. The remaining phase of the project includes commencement of construction activities. **The project was advertised for construction bids in July 2024 and construction is scheduled to begin August 2025.** The New Independence Parkway Extension will connect to Wellness Way at the County Line, which will be constructed by Lake County.

The new four-lane divided east-west roadway will link US 27 in Lake County with SR 429 in Orange County near the Horizon West Hamlin Groves community. The road will include lighting, landscaping, and a ten-foot multi-use path on each side of the road. Coordination with Lake County has occurred for the connection at the County line heading west towards US 27. A new dry retention pond will serve the west basin and an existing master retention pond serves the east basin.
