Design Underway

Orange County has initiated the final design phase for the Horizon West Town Center (HWTC) – CR 545 project, which consists of widening CR 545 (Avalon Road) from Lake Hamlin Trail to north of McKinney Road, including a small segment of New Independence Parkway. This phase of the project includes the roadway engineering and preparation of final construction plans and documents. The construction plans are scheduled to be completed in Fall 2023. The project team will issue a series of newsletters and the website will be updated periodically with additional information.

Project Details

The project consists of widening CR 545 from a two-lane undivided facility to a four-lane divided roadway for a distance of approximately 1.1 miles from Lake Hamlin Trail to north of McKinney Road. CR 545 will include two 11-foot-wide travel lanes in each direction separated by a raised grassed median. A ten-foot concrete sidewalk will be provided along both sides of CR 545. Lighting and landscaping will also be provided along the roadway corridor. Intersection improvements at Lake Ingram Road, Silver Grove Boulevard, New Independence Parkway, and McKinney Road will be included as part of this project. New Independence Parkway East is a four-lane divided roadway which will be extended 600-feet west past its intersection with CR 545 and include turn lanes. The project will be designed in general accordance with the Town Center Preliminary Design Study as approved by the Board of County Commissioners.
